

Anonymous Email

CryptoHeaven offers [anonymous email](#) service. Remain totally anonymous as your IP address, and any track record of where your email is sent and received from are eliminated. Your messages cannot be tracked back to you personally, to your location, or to your computer.

Anonymous Email Advantages

- send AND RECEIVE anonymous email safely and privately
- your IP address is never shown
- plain text stripping from HTML message (selectable)
- change your email address at any time
- independent from your existing email accounts
- online address book (with an ability to import your existing contacts)
- notifications when new email arrives
- spam filtering
- unlimited storage space available
- send and receive large attachments
- supports secure and anonymous instant messaging and multi-user chat
- multi-user accounts are available

There is no obligation, cancel your account at any time.

In addition to the above, you get the following additional benefits **free of charge**:

- [secure email](#)
- [secure instant messaging](#)
- [secure online storage](#) and collaboration

Sign up for CryptoHeaven!

CryptoHeaven provides you with private, secure and [anonymous email](#). All communication is encrypted between your computer and our servers. All data stored on CryptoHeaven servers is encrypted with 256-bit AES encryption technology. It is impossible for a 3rd party to retrieve and read your email.
