

Secure Online Storage

Take advantage of CryptoHeaven **Online Storage** as your digital safe deposit box. CryptoHeaven allows you to access, store and backup digital information in a secure, private and encrypted CryptoVault. Use it for secure access to your critical data from anywhere.

Use CryptoHeaven to:

- distribute large files to your associates,
- collaborate with people or groups working on the same file,
- securely access documents away from your office,
- reduce network load by eliminating the need for large email attachments,

CryptoHeaven Online Storage offers you:

- secure and encrypted hosted storage,
- secure file sharing and secure file distribution,
- end-to-end encryption,
- automatic file compression to reduce space and bandwidth requirements,
- document expiry settings
